Technical Skills HTML,JavaScript,CSS,Reactjs,Nextjs,MongoDB,SQL Expressjs,PHP,MERN Stack,React EXPO

Soft Skills Content Writing, Research, communication, listening, time management, problem-solving, leadership

EXPERIENCE

Nextjs Developer Intern Dec 2022 - March 2023
Pune

- **Practical Application:** Applied Next.js concepts in real projects, focusing on UI development and performance optimization.
- **Team Collaboration:** Learned from experienced developers through code reviews and pair programming, enhancing skills in a collaborative setting.
- **Problem-Solving Skills:** Developed proficiency in troubleshooting and finding efficient solutions to challenges encountered during development tasks.

Front-end Developer Intern Sept 2022 - Dec 2022
Handbandi.com Pune

My internship at handbandi.com was a foundational experience, exposing me to real-world problems in the tech industry for the first time. I had the opportunity to work on practical challenges alongside experienced professionals, learning invaluable skills in problem-solving, collaboration, and adaptability. This experience served as a crucial stepping stone in my professional development, providing me with hands-on exposure and laying the groundwork for future endeavors.

PROJECTS

Work Gamification. A web app revolutionizing task management. Earn coins for completing tasks, creating an engaging work environment. Built with React front end, Express.js back end, and Firebase database. Redeem coins for rewards on our e-commerce platform. Boost motivation and productivity!

Social Site. A social platform empowering users to share their stories through photos, descriptions, and location tags. Developed with Next.js on the front end and Express.js on the back end, with MongoDB handling the database operations. Explore the world through the eyes of our community, connect with others, and discover new places through shared experiences..

Restaurant Seat Booking Application. A mobile application tailored for restaurant-goers, offering seamless booking experiences and personalized features. Users can effortlessly reserve seats by visualizing each floor's layout, selecting tables based on seat availability displayed alongside. With functionalities to cancel bookings and add restaurants to favorites, the app prioritizes user convenience. Leveraging React Expo for the frontend, Express.js for

backend support, and MongoDB for database management, our project ensures smooth operations and data handling. Bookings are automatically cleared post the scheduled date and time, optimizing efficiency and user experience. .

EXTRA-CURRICULAR ACTIVITIES

- As an avid enthusiast of various activities beyond academics and professional endeavors, I find fulfillment and joy in pursuing diverse interests. Basketball serves as a cornerstone of my recreational pursuits, not only fostering physical fitness but also instilling values of teamwork, strategy, and perseverance.
- In the digital realm, I immerse myself in the dynamic world of gaming, where strategic thinking, quick decision-making, and adaptability are honed. Participating in hackathons fuels my passion for innovation and problem-solving, offering collaborative environments to ideate and develop creative solutions to real-world challenges.
- Moreover, my involvement in competitive coding competitions provides an exhilarating platform to showcase my technical acumen and algorithmic prowess. These experiences not only expand my skill set but also cultivate resilience, resourcefulness, and a drive for continuous improvement.
- Beyond these pursuits, I have a voracious appetite for learning new languages and exploring diverse domains. Whether it's delving into the intricacies of a programming language, studying a foreign tongue, or immersing myself in a new field of knowledge, I thrive on the intellectual stimulation and growth that come with each new endeavor.
- Together, these hobbies reflect my multifaceted interests, fueling my quest for personal growth, learning, and exploration in both physical and digital realms.
